PhD Students, Postdocs and other supervised students (incomplete list)

Supervised PhD Students
All PhD degrees are awarded by the Georg-August University Göttingen, unless stated otherwise. In brackets the year of passing the final examination and their present known professional affiliation (if known).

1. Peter Julius: (1979, Axa Colonia Leben, Cologne; Pro BAV Pensionskasse AG (Vorstand)) Generation of point-distal dynamical systems by almost periodicity.

14. Stefan-M. Heinemann: (1994) Dynamical aspects of holomorphic maps in \( \mathbb{C}^n \).

15. Axel Munk: (1994, Professor of Statistics and Mathematics, University of Göttingen) Chebychev-experiments

21. Atsushi Imai: (2000, school teacher, Osaka) Pentakun, the mod 5 Markov chain and a Martin boundary.

41. Mark Fridline: (2009 Case Western Reserve University; Ass. Professor, University of Akron) Almost sure confidence intervals for the correlation coefficient.

42. Tina Facca (2010, Ass. Professor, John Carroll University) Classification and analysis of management and marketing data. Statistical applications for strategic planning.
43. Souha Fares (2011 Case Western Reserve University) Cox-Ross-Rubinstein option pricing model with dependent jump sizes.

**PhD Students in Biostatistics and Epidemiology (co-supervised)**

**Postdocs and Other students (selected)**

2. Uwe Rösler (1979-1989) Postdoc; Professor of Mathematics, University of Kiel.

5. Adam Jakubowski (1988-1989) Postdoc; Professor of Mathematics, University of Torun.
