

Publications of T. Jech

1. (with B. Balcar), Модели теории множеств образованные совершенным отношением, (Models of set theory given by perfect relations), Časopis pro pěstování matematiky **90** (1965), 413–434, MR 35, #48.
2. *On ordering of cardinalities*, Bulletin de l'Académie Polonaise des Sciences **14** (1966), 293–296, MR 34, #1203.
3. (with A. Sochor), *On θ -model of the set theory*, Bulletin de l'Académie Polonaise des Sciences **14** (1966), 297–303, MR 34, #2441.
4. (with A. Sochor), *Applications of the θ -model*, Bulletin de l'Académie Polonaise des Sciences **14** (1966), 351–355, MR 37, #3918.
5. *Interdependence of weakened forms of the axiom of choice*, Commentationes Mathematicae Universitatis Carolinae **7** (1966), 359–371, MR 34, #1204.
6. *On cardinals and their successors*, Bulletin de l'Académie Polonaise des Sciences **14** (1966), 533–537, MR 37, #56.
7. *Non-provability of Souslin's hypothesis*, Commentationes Mathematicae Universitatis Carolinae **8** (1967), 291–305, MR 35, #6564.
8. *Eine Bemerkung zum Auswahlaxiom*, Časopis pro pěstování matematiky **93** (1968), 30–31, MR 38, #2027.
9. ω_1 can be measurable, Israel Journal of Mathematics **6** (1968), 363–367, MR 39, #5353.
10. *Isomorphism types of trees*, Notices Amer. Math. Society **17** (1970), 673.
11. *On models for set theory without AC*, Axiomatic Set Theory, Proceedings of Symposia in Pure Mathematics XIII, Part I (D. Scott, ed.), American Mathematical Society, Providence, RI, 1971, pp. 135–141, MR 43, #6078.
12. *Trees*, Journal of Symbolic Logic **36** (1971), 1–14, MR 44, #1560.
13. *The closed unbounded filter over $P_\kappa(\lambda)$* , Notices Amer. Math. Society **18** (1971), 663.
14. **“Lectures in set theory with particular emphasis on the method of forcing”**, Lecture Notes in Mathematics vol. 217, Springer-Verlag, Berlin, 1971, MR 48, #105.
15. (with W. Powell), *Standard models of set theory with predication*, Bulletin Amer. Math. Society **77** (1971), 808–813, MR 43, #6074.
16. *Two remarks on elementary embeddings of the universe*, Pacific J. Math. **39** (1971), 395–400, MR 46, #7032.
17. *Some species of trees*, Notices Amer. Math. Society **19** (1972), A-29.
18. *A propos d'algèbres de Boole rigides et minimales*, C.R. Acad. Sc. Paris **274** (1972), 371–372, MR 44, #6569.
19. *Automorphisms of ω_1 -trees*, Transactions Amer. Math. Society **173** (1972), 57–70, MR 50, #108.
20. *Some combinatorial problems concerning uncountable cardinals*, Annals Math. Logic **5** (1973), 165–198, MR 48, #3744.
21. **“The Axiom of Choice”**, Studies in Logic and the Foundations of Mathematics vol. 75, North-Holland Publ. Co., Amsterdam, 1973, MR 53, #139.

22. (with U. Felgner), *Variants of the axiom of choice in set theory with atoms*, *Fundamenta Mathematicae* **79** (1973), 79–85, MR 47, #8302.
23. *Properties of the gimel function and a classification of singular cardinals*, *Fundamenta Mathematicae* **81** (1973), 57–64, MR 52, #10424.
24. “Теория множеств и метод форсинга”, Russian translation of [14], Mir, Moscow, 1973, MR 49, #10547.
25. *On a problem of Rubin and Rubin*, *Notices Amer. Math. Society* **21** (1974), A-22.
26. *A descending sequence of models of HOD sets*, *Notices Amer. Math. Society* **21** (1974), A-322.
27. *Simple complete Boolean algebras*, *Israel Journal of Mathematics* **18** (1974), 1–10, MR 51, #4300.
28. *Forcing with trees and ordinal definability*, *Annals Math. Logic* **7** (1974), 387–410, MR 51, #142.
29. (editor), “**Axiomatic Set Theory**”, *Proc. Symp. of Pure Math.* vol. XIII, Part II, Amer. Mathematical Society, Providence, RI, 1974.
30. *Almost disjoint families of stationary sets*, *Notices Amer. Math. Society* **22** (1975), A-647.
31. (with L. Harrington), *On Σ_1 well-orderings of the universe*, *Journal of Symbolic Logic* **41** (1976), 167–170, MR 53, #7780.
32. *An infinite game played with stationary sets*, *Notices Amer. Math. Society* **23** (1976), A-286.
33. *A note on countably generated complete Boolean algebras*, *Proceedings Amer. Math. Society* **56** (1976), 272–276, MR 53, #2679.
34. (with K. Prikry), *On ideals of sets and the power set operation*, *Bulletin Amer. Math. Society* **82** (1976), 593–595, MR 58, #21618.
35. *A Boolean algebraic game*, *Notices Amer. Math. Society* **24** (1977), A-507.
36. *Precipitous ideals*, *Logic Colloquium 76*, (R. Gandy and M. Hyland, eds.), North-Holland Publ. Co., Amsterdam, 1977, pp. 521–530, MR 58, #5224.
37. *About the axiom of choice*, *Handbook of Mathematical Logic*, (J. Barwise, ed.), North-Holland Publ. Co., Amsterdam, 1977, pp. 345–370, MR 58, #27475.
38. (with K. Hrbacek), “**Introduction to Set Theory**”, M. Dekker, Inc., New York, 1978, MR 58, #10453.
39. (with F. Galvin and M. Magidor), *An ideal game*, *Journal of Symbolic Logic* **43** (1978), 284–292, MR 58, #5237.
40. “**Set Theory**”, Academic Press, New York, 1978, (Review: *Bulletin Amer. Math. Society* vol. **3** (1980), 775–777.) MR **80a:03062**.
41. *Set Theory*, Chinese edition of [40], Beijing.
42. *A game theoretic property of Boolean algebras*, *Logic Colloquium '77*, (A. Macintyre et al., eds.), North-Holland Publ. Co., Amsterdam, 1978, pp. 135–143, MR **80c:90184**.
43. (with K. Prikry), *Ideals over uncountable sets: Application of almost disjoint functions and generic ultrapowers*, *Memoirs Amer. Math. Society* vol. **18**, no. **214**, American Mathematical Society, Providence, RI, 1979, MR **80f:03059**.

44. (with K. Prikry), *On projections of finitely additive measures*, Proceedings Amer. Math. Society **74** (1979), 161–165, MR **80f:28002**.
45. (with M. Magidor, W. Mitchell and K. Prikry), *Precipitous ideals*, Journal of Symbolic Logic **45** (1980), 1–8, MR **81h:03097**.
46. *On a problem of L. Nachbin*, Proceedings Amer. Math. Society **79** (1980), 341–342, MR **81d:04003**.
47. *On the number of generators of an ideal*, Notre Dame J. Formal Logic **22** (1981), 105–108, MR **83i:03078**.
48. *A maximal definable σ -ideal over ω_1* , Israel Journal of Mathematics **39** (1981), 155–160, MR **84a:03059**.
49. *The brave new world of determinacy*, Review of “Descriptive Set Theory” by Y. N. Moschovakis, Bulletin Amer. Math. Society **5** (1981), 339–349.
50. *On hereditarily countable sets*, Jour. Symbolic Logic **47** (1982), 43–47, MR **83e:04007**.
51. *A note on countable Boolean algebras*, Algebra Universalis **14** (1982), 257–262, MR **83a:06019**.
52. *The ranking of incomplete tournaments: a mathematician’s guide to popular sports*, American Math. Monthly **90** (1983), 246–266, MR **85i:05122**.
53. (with W. Mitchell), *Some examples of precipitous ideals*, Annals of Pure and Applied Logic **24** (1983), 131–151, MR **85k:03033**.
54. *Some properties of κ -complete ideals defined in terms of infinite games*, Annals of Pure and Applied Logic **26** (1984), 31–45, MR **85h:03057**.
55. *More game-theoretic properties of Boolean algebras*, Annals of Pure and Applied Logic **26** (1984), 11–29, MR **85j:03110**.
56. (with Karel Prikry), *Cofinality of the partial ordering of functions from ω_1 into ω under eventual domination*, Math. Proc. Cambridge Phil. Soc. **95** (1984), 25–32, MR **85b:03084**.
57. *Stationary subsets of inaccessible cardinals*, Axiomatic Set Theory, Contemporary Mathematics, vol. 31 (J. Baumgartner, ed.), American Mathematical Society, Providence, RI, 1984, pp. 115–142, MR **86c:03044**.
58. (with Karel Hrbacek), **“Introduction to Set Theory”**, 2nd edition, Marcel Dekker Inc., New York, 1984, MR **85m:04001**.
59. Introduction to Set Theory, Chinese edition of [58], Beijing.
60. *Abstract theory of abelian operator algebras: an application of forcing*, Transactions Amer. Math. Society **289** (1985), 133–162, MR **87f:03146**.
61. (with H. Woodin), *Saturation of the closed unbounded filter on the set of regular cardinals*, Transactions Amer. Math. Society **292** (1985), 345–356, MR **87d:03139**.
62. *A theorem on $P_\kappa(\lambda)$* , J. Math. Soc. Japan **38** (1986), 421–425, MR **87f:04003**.
63. (with Andreas Blass), *On the Egoroff property of pointwise convergent sequences of functions*, Proceedings Amer. Math. Society **98** (1986), 524–526, MR **87i:54013**.
64. **“Multiple Forcing”**, Cambridge Tracts in Mathematics, Cambridge University Press, Cambridge, 1986, (Review: Bulletin Amer. Math. Society vol. **20** (1989), 103–107.) MR **89h:03001**.

65. *A hierarchy of filters on regular uncountable cardinals*, Journal of Symbolic Logic **52** (1987), 388–395, MR **88e:03071**.
66. *First order theory of complete Stonean algebras (Boolean-valued real and complex numbers)*, Canad. Math. Bulletin **30** (1987), 385–392, MR **89h:03091**.
67. *A quantitative theory of preferences: some results on transition functions*, Social Choice and Welfare **6** (1989), 301–314, MR **91e:90006**.
68. *Distributive laws*, Chapter 8, Handbook of Boolean Algebra, (J. D. Monk, ed.), NorthHolland Publ. Co., Amsterdam, 1989, pp. 317–331, MR **90k:06003**.
69. *Boolean-valued models*, Chapter 27, Handbook of Boolean Algebra, (J. D. Monk, ed.), North-Holland Publ. Co., Amsterdam, 1989, pp. 1197–1211, MR **90k:06004**.
70. (with Qi Feng), *Local clubs, reflection, and preserving stationary sets*, Proceedings London Math. Society **58** (1989), 237–257, MR **90a:03072**.
71. *Positive Σ operations on ordinals and normal filters on greatly Mahlo cardinals*, Journal of Symbolic Logic **54** (1989), 226–233, MR **90a:03073**.
72. *A remark on a principle of Brézis and Browder*, Applied Math. Letters **2** (1989), 33.
73. (with S. Shelah), *A note on canonical functions*, Israel Journal of Mathematics **68** (1989), 376–380, MR **90m:03088**.
74. *Boolean-linear spaces*, Advances in Mathematics **81** (1990), 117–197, MR **91d:06003**.
75. (with S. Shelah), *Full reflection of stationary sets below \aleph_ω* , Journal of Symbolic Logic **55** (1990), 822–830, MR **91i:03096**.
76. *Local topology and a spectral theorem*, Operator Theory: Advances and Applications **48** (1990), 297–306, MR **93m:54005**.
77. *On the cofinality of countable products of cardinal numbers*, A tribute to Paul Erdős, (A. Baker, B. Bollobás and A. Hajnal, eds.), Cambridge University Press, 1990, pp. 289–305, MR **92m:03083**.
78. (with Marcia Groszek), *Generalized iteration of forcing*, Transactions Amer. Math. Society **324** (1991), 1–26, MR **91f:03107**.
79. *The infinite*, Jahrbuch 1990 der Kurt-Gödel-Gesellschaft, Wien, 1991, pp. 36–44, MR **93h:03004**.
80. (with S. Shelah), *On a conjecture of Tarski on products of cardinals*, Proceedings Amer. Math. Society **112** (1991), 1117–1124, MR **91j:03066**.
81. (with S. Shelah), *A partition theorem for pairs of finite sets*, Journal Amer. Math. Society **4** (1991), 647–656, MR **93a:03049**.
82. *The logarithmic distribution of leading digits and finitely additive measures*, Discrete Mathematics **108** (1992), 53–57, MR **93i:11087**.
83. *Singular cardinal problem: Shelah's theorem on 2^{\aleph_ω}* , Bulletin of the London Math. Society **24** (1992), 127–139, MR **93a:03050**.
84. (with S. Shelah), *Full reflection of stationary sets at regular cardinals*, American Journal of Mathematics **115** (1993), 435–453, MR **94m:03080**.
85. *A variation on a theorem of Galvin and Hajnal*, Bulletin of the London Math. Society **25** (1993), 97–103, MR **94h:03089**.

86. *On Gödel's Second Incompleteness Theorem*, Proceedings Amer. Math. Society **121** (1994), 311–313, MR **94g:03018**.
87. (with J. Witzany), *Full reflection at a measurable cardinal*, J. Symbolic Logic **59** (1994), 615–630, MR **96c:03102**.
88. *OTTER experiments in a system of combinatory logic*, J. Automated Reasoning **14** (1995), 413–426, MR **96c:03032**.
89. *Singular cardinals and the pcf theory*, Bulletin of Symbolic Logic **1** (1995), 408–424, MR **97d:03070**.
90. (with S. Shelah), *Possible pcf algebras*, J. Symbolic Logic **61** (1996), 313–317, MR **97g:03050**.
91. (with S. Shelah), *A complete Boolean algebra that has no proper atomless complete subalgebra*, Journal of Algebra **182** (1996), 748–755, MR **97j:03109**.
92. (with S. Shelah), *On countably closed complete Boolean algebras*, Journal of Symbolic Logic **61** (1996), 1380–1386, MR **98h:06028**.
93. (with R. Dougherty), *Left-distributive embedding algebras*, Electronic Research Announcements of the American Math. Society **3** (1997), 28–37, MR **98b:20114**.
94. *Large ordinals*, Advances in Mathematics **125** (1997), 155–170, MR **98g:03117**.
95. (with R. Dougherty), *Finite left-distributive algebras and embedding algebras*, Advances in Mathematics **130** (1997), 201–241, MR **99f:08004**.
96. (with B. Balcar and J. Zapletal), *Semi-Cohen Boolean algebras*, Annals of Pure and Applied Logic **87** (1997), 187–208, MR **99a:03050**.
97. **“Set Theory”**, 2nd edition, Springer-Verlag, Heidelberg, 1997, MR **99b:03061**.
98. (with B. Balcar and W. Glowczynski), *The sequential topology on complete Boolean algebras*, Fundamenta Mathematicae **155** (1998), 59–78, MR **99b:28006**.
99. (with Q. Feng), *Projective stationary sets and a strong reflection principle*, Journal of the London Math. Society **58** (1998), 271–283, MR **2000b:03166**.
100. (with Karel Hrbacek), **“Introduction to Set Theory”**, 3rd edition, Marcel Dekker Inc., New York, 1999, MR **01c:03001**.
101. *Some results on combinators in the system TRC*, Journal of Symbolic Logic **64** (1999), 1811–1819, MR **03a:03028**.
102. *The infinite*, translation of [79] into Korean, Historia Math **12** (1999), 159–165.
103. (with S. Shelah), *On reflection of stationary sets in $P_\kappa\lambda$* , Transactions of the American Math. Society **352** (2000), 2507–2515, MR **00j:03071**.
104. (with S. Shelah), *Simple complete Boolean algebras*, Proceedings of the American Math. Society **129** (2001), 543–549, MR **01e:03083**.
105. *Set Theory*, URL=<http://plato.stanford.edu/entries/set-theory>, The Stanford Encyclopedia of Philosophy, (Summer 2002 Edition, E. Zalta, ed.).
106. **“Set Theory”**, The Third Millennium Edition, Springer-VerLag, Heidelberg, 2002, MR **2004g:03071**.
107. (with B. Balcar and T. Pazák), *Complete ccc Boolean algebras, the order sequential topology, and a problem of von Neumann*, Bulletin of the London Math. Society **37** (2005), 885–898.
108. *El infinito*, translation of [79] into Spanish, La Gaceta de la RSME **8** (2005), 369–377.

109. (with B. Balcar), *Weak distributivity, a problem of von Neumann and the mystery of measurability*, Bulletin Symb. Logic **12** (2006), 241–266.
110. “**Set Theory**”, Chinese edition of [106], Beijing, 2007.
111. (with Q. Feng and J. Zapletal), *On the structure of stationary sets*, Science in China, Ser. A **50** (2007), 615–627.
112. “**The Axiom of Choice**”, Reprint of [21], Dover Publications, New York, 2008.
113. (with B. Balcar), *Contributions to the theory of weakly distributive complete Boolean algebras*, Andrzej Mostowski and Foundational Studies, (A. Ehrenfeucht, V. W. Marek and M. Srebrny, eds.), IOS Press, Amsterdam, 2008, pp. 144–150.
114. *Algebraic characterizations of measure algebras*, Proceedings of the American Mathematical Society **136** (2008), 1285–1294.
115. *WHAT IS ... Forcing?*, Notices of the American Mathematical Society **55** (2008), 688–689.
116. *Stationary sets*, Handbook of Set Theory, (M. Foreman, A. Kanamori and M. Magidor, eds.), Springer, 2010, pp. 93–128.
