

Math22 College Algebra

January 15, 2007

Instructor: Hengguang Li
Office: 18 McAllister
E-mail: hxl216@psu.edu
Office Hours: Wednesday 4:00PM-5:00PM
Thursday 3:30PM-4:30PM
Otherwise by appointment
Website: http://www.math.psu.edu/li_h
At this Website you will find the information
about the course, exams, and assignments.
Location & Time: 016 AGRICULTURAL SCIENCES & INDUSTRIES,
MWF 2:30PM - 3:20PM (Section 006)

Quizzes: Quizzes will be announced in class and given on every Friday unless there is an exam in that week. The lowest quiz grade will be dropped.

Problem Sets: No homework will be assigned, so only quiz grade will count to your final grade in this class. However, you are strongly encouraged to practice on the suggested homework assignments online at www.math.psu.edu/li_h/math22/hw.htm. These problems will definitely help you get prepared for the quizzes and fully understand the material in the class.

Quiz Grade:

$$\frac{\text{Quizzes}}{\text{Total Possible points}} \times 100 = \text{Quiz grade}$$

You are encouraged to work together on Problem Sets. Help is available from your peers, tutors in the Math Center and from me during office hours or scheduled appointments.

Exam Dates:

Midterm Examination I: Tuesday, February 20, 6:30-7:45PM
Midterm Examination II: Wednesday, April 4, 6:30-7:45PM
Final Exam will be announced in class.

Wish you a great semester!!!
