Exam Day
1. KNOW your instructor’s name
2. KNOW your section number
3. KNOW your exam location

Questions? Read the syllabus and/or ask your instructor

Exam Information:
The final exam is comprehensive
• 28 multiple choice questions to be answered on a scantron, 21 worth 6 points, 4 worth 3 points, and 3 worth 4 points.
The approximate breakdown:
• 60% from the material covered in the first two exams
• 40% from new material since Exam 2

CAUTION: Doing sample exams alone will NOT be enough to do well on this exam.

Study Suggestions
1. Redo every example in your notes.
2. Work examples in the text.
3. Rework textbook exercises, particularly those that gave you difficulties.
4. Write out the theorems and understand what they mean. Look at pertinent questions in the text that refer to the theorems.
5. Redo each of your two midterms. Figure out what you need to do to work each problem correctly.
6. Review the Additional Resources on the departmental website.
7. Do the Practice Quizzes and Practice Exams on Canvas, if available.
8. Do the Sample Exams from the departmental website. Try to do the exams with no notes, no calculator, no textbook in a quiet place with no interruptions. Time yourself; final exams are 110 minutes long. Grade the exam.
